CRONUS G2 DUAL FOCUS	20-60x85 ED	311006

IDEAL APPLICATION

LONG RANGE AND TARGET

HUNTING

TOP FEATURES

APOCHROMATIC LENS SYSTEM

The apochromatic lens system adds an optical element to help converge refracting colors into one focus point, producing greater contrast, sharpness, and color definition.

UHD GLASS

Extra low dispersion glass gives you an advantage with an image that has little or no chromatic fringe for the ultimate clearest and sharpest image

XPL PROTECTIVE COATING

A protective coating that gives you extra protection on the exterior lenses to prevent the scope from enduring dirt, oil, and potential scratches.
